# Lab-05 Checklist

## Before

- [ ] I am using only supplied mock data.
- [ ] I confirmed the tool URL and training scope.
- [ ] I will stop if the environment differs from the instructions.

## During

- [ ] Step 1: Confirm the scope is limited to the supplied FauxBank training site and mock accounts; do not test any other system.
- [ ] Step 2: Review the test plan and identify the expected safe outcome for authentication, authorisation and input validation.
- [ ] Step 3: Run only the non-destructive checks listed in the plan; never attempt data destruction, denial of service or persistence.
- [ ] Step 4: Record the request context, observed behaviour, risk, affected user and reproducibility without storing real credentials.
- [ ] Step 5: Map each observation to a vulnerability category and a defensive recommendation.
- [ ] Step 6: Create a one-page responsible report with evidence, impact, remediation and escalation priority.

## Before submission

- [ ] Signed scope check
- [ ] Completed test plan
- [ ] Redacted screenshots
- [ ] Risk statements
- [ ] Responsible report
- [ ] Screenshots are redacted and contain no real personal or secret data.
- [ ] My conclusion distinguishes fact from inference.
