Lab-08 Checklist

Before

- [ ] I am using only supplied mock data.
- [ ] I confirmed the tool URL and training scope.
- [ ] I will stop if the environment differs from the instructions.

During

- [ ] Step 1: Upload only the supplied synthetic mock-traffic.pcap to the PCAP Analyzer; do not upload production captures.
- [ ] Step 2: Identify top talkers, unusual ports, repeated destinations, DNS lookups and cleartext indicators.
- [ ] Step 3: Correlate packet observations with mock-packet-summary.csv and mark any disagreement.
- [ ] Step 4: Build a five-event timeline and identify the earliest reliable sign of compromise.
- [ ] Step 5: Decide whether to monitor, block, isolate or escalate; include potential business impact.
- [ ] Step 6: Write an evidence-preserving handover note without including unnecessary personal data.

Before submission

- [ ] Traffic findings
- [ ] Five-event timeline
- [ ] Earliest reliable signal
- [ ] Containment decision
- [ ] Handover note
- [ ] Screenshots are redacted and contain no real personal or secret data.
- [ ] My conclusion distinguishes fact from inference.
