# Lab-10 Checklist

## Before

- [ ] I am using only supplied mock data.
- [ ] I confirmed the tool URL and training scope.
- [ ] I will stop if the environment differs from the instructions.

## During

- [ ] Step 1: Read the incident brief and assign roles: incident lead, evidence recorder, communications lead and business owner.
- [ ] Step 2: Correlate email, endpoint, identity and network events into one timeline; state which events are facts and which are hypotheses.
- [ ] Step 3: Assess impact to confidentiality, integrity, availability, safety, finance, reputation and legal obligations.
- [ ] Step 4: Choose immediate actions that are reversible, evidence-preserving and proportionate to business risk.
- [ ] Step 5: Use the contact matrix to escalate to the correct internal and external parties; do not contact real organisations during the exercise.
- [ ] Step 6: Deliver a three-minute incident briefing: situation, evidence, impact, actions, decisions required and next update time.
- [ ] Step 7: Complete the mock risk register and one after-action improvement with owner and due date.

## Before submission

- [ ] Correlated timeline
- [ ] CIA and business-impact assessment
- [ ] Decision log
- [ ] Escalation record
- [ ] Three-minute briefing
- [ ] After-action improvement
- [ ] Screenshots are redacted and contain no real personal or secret data.
- [ ] My conclusion distinguishes fact from inference.
